

Asalam u alikum.

Hope all the children and parents are fine and in best of their health.

We hope that till now the students have completed all the U2 assignment already provided to you in the school.

Now we have uploaded these **T1 TUTORIALS for home assignment. Parents are requested to guide their children in completion of these T1 tutorials.**

Kindly note that many of these assignments would require you to print the material, however, if you are not able to do so, parents may consider the worksheets as reference and guide the children to do similar exercises on school copies or practice notebooks or even on loose sheets (which ever is feasible to parents).

Parents can check the T1 syllabus from download section of the website and guide the wards accordingly.

Parents may also check various online sites for rhymes and other study material to keep the children busy and learning during these days of lockdown.
